Product-Type: Brushless DC motor
Model: MQ xxx, M xxx, MC xxx, MQC xxx, ECg xx und ECs xx
Serial number: see nameplate
Status: 2015

The manufacturer declares that all above stated products are incomplete machines accordance to the Machinery Directive. The products are intended for installation in a machine or partly completed machine. Because of this they do not yet meet all the requirements of the Machinery Directive.

The operating voltage range of the products extends from 0 to 75Vdc. The product is unsuitable for other voltage values.

The special technical documents according to the Machinery Directive Annex VII, Part B have been prepared. On a reasoned request the authorized representative for the compiling of the technical document is obliged to transmit the documents to the responsible national authorities. It shall be sent by post in paper form or in digital form.

Commissioning of these products is prohibited until it has been found that the machine into which the aforementioned products are installed complies with all essential requirements of the Machinery Directive and all other relevant directives.

The above products comply with the requirements of the following relevant directives:

- DIN EN 60034-1
- DIN EN 60034-2
- DIN EN 60034-5

Gosheim, the 30.11.2015

Roland Zienicke (CEO)
